To whom concerns,

I've taught the classes of Computer Science Theoretical Fundamentals and Compilers to Tyrone Bastro Alo on Computer Science course at Fumec University, and I can say that he is a compromissed student, with a dynamic and organized profile. He is always aware to the due dates of homeworks and shows so much care for the academical activities. In one of my classes he achieved the highest score on the class. I'm sure that he will have a bright future and I'm proud of being part of his journey.

Any additional info, please contact me: +55 31 98040-2103 or joaopauloaramuni@fumec.br

Sincerely,

João Paulo C. Aramuni
Professor at FUMEC University
PhD Student in Information Systems and Knowledge Management
from FUMEC University (2020)
Master in Information Systems and Knowledge Management
from FUMEC University (2015)
Bachelor of Computer Science
from FUMEC University (2013)
